

VERMONT BLEND PRO

Probiotic and prebiotic, ration balancer
and hoof supplement with amino acids for topline.

BIO-MOS 2®

A unique product derived from a selected strain of *Saccharomyces cerevisiae* yeast using a proprietary process developed by Alltech, BIOMOS is incorporated into equine diets to support gut integrity and overall animal performance. BIO-MOS 2 is designed to feed the gastrointestinal tract and supports natural defenses. BIOMOS 2 supports gastrointestinal integrity and stability.

YEA-SACC EXTRA®

This yeast culture is based on *Saccharomyces cerevisiae* strain 1026, a strain specifically elected for its influence on animal performance. YEA-SACC enhances fiber-digesting bacteria and supports the fermentation of feedstuffs in the cecum, promoting nutrient utilization. Normal digestive function is supported throughout training and traveling.

- ✓ No added iron
- ✓ No inactive ingredients
- ✓ Low sugar and starch
- ✓ Amino acids for top-line and muscle support
- ✓ Immune support
- ✓ Binds harmful bacteria
- ✓ Improves nutrient absorption
